- Your financial details e.g. details of how you pay us for your care or your funding arrangements.

We also record the following data which is classified as "special category":

- Health and social care data about you, which might include both your physical and mental health data.

- We may also record data about your race, ethnic origin, sexual orientation or religion.

### **Why do we have this data?**

We need this data so that we can provide high-quality care and support. By law, we need to have a lawful basis for processing your personal data.

We process your data because: We have a legal obligation to do so – generally under the Health and Social Care Act 2012 or Mental Capacity Act 2005.

We process your special category data because

- It is necessary due to social security and social protection law (generally this would be in safeguarding instances);
- It is necessary for us to provide and manage social care services;
- We are required to provide data to our regulator, the Care Quality Commission (CQC), as part of our public interest obligations.

We may also process your data with your consent. If we need to ask for your permission, we will offer you a clear choice and ask that you confirm to us that you consent. We will also explain clearly to you what we need the data for and how you can withdraw your consent at any time.

### **Common law duty of confidentiality**

In our use of health and care information, we satisfy the common law duty of confidentiality because:

- You have provided us with your consent (either implicitly to provide you with care, or explicitly for other uses)
- We have a legal requirement to collect, share and use the data
- The public interest to collect, share and use the data overrides the public interest served by protecting the duty of confidentiality (for example sharing information with the police to support the detection or prevention of serious crime).

### **Where do we process your data?**

So that we can provide you with high quality care and support we need specific data. This is collected from or shared with:

1. You or your legal representative(s);
2. Third parties.

We do this face to face, via phone, via email, via our website, via post, via application forms, via apps

Third parties are organisations we might lawfully share your data with. These include:

- Other parts of the health and care system such as local hospitals, the GP, the pharmacy, social workers, clinical commissioning groups, and other health and care professionals;
- The Local Authority;
- Your family or friends – with your permission;
- Organisations we have a legal obligation to share information with i.e. for safeguarding, the CQC;
- The police or other law enforcement agencies if we have to by law or court order.

## 2. National Data Opt-Out

We review our data processing on an annual basis to assess if the national data opt-out applies. This is recorded in our Record of Processing Activities. All new processing is assessed to see if the national data opt-out applies.

If any data processing falls within scope of the National Data Opt-Out we use [MESH](#) to check if any of our service users have opted out of their data being used for this purpose.

At this time, we do not share any data for planning or research purposes for which the national data opt-out would apply. We review all of the confidential patient information we process on an annual basis to see if this is used for research and planning purposes. If it is, then individuals can decide to stop their information being shared for this purpose. You can find out more information at <https://www.nhs.uk/your-nhs-data-matters/>.

We are applying the national data opt-out because we are using confidential patient information for purposes beyond individual care.

The information collected about you when you use health and care services can also be used and provided to other organisations for purposes beyond your individual care, for instance to help with:

- improving the quality and standards of care provided

- research into the development of new treatments
- preventing illness and diseases
- monitoring safety
- planning services

This may only take place when there is a clear legal basis to use this information. All these uses help to provide better health and care for you, your family and future generations. Confidential patient information about your health and care is only used like this when allowed by law.

Most of the time, the data used for research and planning is anonymised, so that you cannot be identified and your confidential patient information is not accessed.

You have a choice about whether you want your confidential patient information to be used in this way. If you are happy with this use of information you do not need to do anything. If you do choose to opt out your confidential patient information will still be used to support your individual care.

To find out more or to register your choice to opt out, please visit [www.nhs.uk/your-nhs-data-matters](https://www.nhs.uk/your-nhs-data-matters).

You can change your mind about your choice at any time.
